Summary

- Passionate and hands-on Computer Engineering graduate currently pursuing PG-DAC from CDAC Bangalore. Proficient in Java, C++, JavaScript, React.Js and Spring Boot with a strong command over MySQL and MongoDB. Delivered real-world solutions like an Online Recruitment System. Strong problem-solving skills. Quick learner with a proven ability to work in teams and deliver on deadlines.

Education

Post Graduate Diploma in Advanced Computing <i>C-DAC ACTS Bangalore , -62.12</i>	February 2025 -August 2025 <i>Bengalore , Karnataka</i>
Kolhapur Institute of Technology <i>Bachelor of Technology- 7.22 CGPA (Mechanical Engineering)</i>	2021 - 2024 <i>Kolhapur, Maharashtra</i>
Walchand College of Engineering <i>Diploma- 90.05 (Mechanical Engineering)</i>	2018 - 2021 <i>Sangli, Maharashtra</i>

Training

Center for Development of Advanced Computing <i>PG-DAC Trainee</i>	February 2025 – August 2025 <i>Bangalore, Karnataka</i>
• Completed intensive 24-week training program covering software development, system programming, and full-stack web technologies. • Gained hands-on experience in C++, Java (OOP, DSA, Web-based Java), and .NET technologies. • Developed strong foundations in Operating Systems, Software Development Methodologies, and Database Technologies. • Built and deployed web applications using HTML, CSS, JavaScript, SQL, and modern web frameworks.	

Projects

Online Recruitment System

- Built a web-based platform to manage complete recruitment lifecycle
- Features: Job posting, resume upload/filtering, interview scheduling, offer management.
- Developed using Java Spring Boot, MySQL, ReactJS.
- Ensured responsive UI, secure login, and modular architecture.

Smart Parking System | C

- A Smart Parking System uses sensors and real-time data to help drivers easily find available parking spots.
- It reduces traffic congestion, saves time, and improves the overall parking experience with features like mobile app integration, automated payments, and efficient space management.

Technical Skills

Programming Languages: C, C++, Java
Web Technologies: HTML, CSS, Bootstrap, JavaScript, React.js
Database Languages: SQL, MongoDB
Frameworks Tools: Spring Boot, Hibernate
Other Skills: Linux, Shell Scripting, Git

Extracurricular

- * Certified Ready Engineer by Tata Technologies in Industry 4.0 training (PLC)
